Impax Global Social Leaders Fund

The Impax Global Social Leaders Fund is focused on companies with strong corporate cultures and that are offering innovative products or services to benefit society in the transition to a more sustainable economy.

In this transition, we believe significant investment will be needed to address the long-term secular trends shaping society, including aging populations, increased incidences of chronic disease, rising income for the bottom billions, urbanization, and the impact of transformational technology. We see long-term growth opportunities from these trends, and the associated investment opportunity in companies that exhibit innovative, equitable and inclusive cultures.

Philosophy

Long-term societal trends are creating opportunities for well positioned companies

We believe the market is underestimating growth opportunities from long-term secular trends shaping society.

Strong corporate cultures drive function and innovation

We believe the market also underestimates the significance of a strong corporate culture in driving company performance.

Objective

We look to exploit these market inefficiencies to drive long-term outperformance.
How we identify interesting companies

The Impax Global Social Leaders Fund’s investment process starts with our deep fundamental research and a strong valuation discipline to build proprietary frameworks that seek to find well positioned companies with strong corporate cultures who derive a material portion of the revenues\(^1\) from products or services benefiting society.

Social taxonomy is designed to identify long-term growth opportunities driven by demographics and societal needs

Companies must meet >20% revenue exposure to products or services benefitting society.

Meeting basic needs

Providing the products and services people cannot live without

**Nutrition**
- Food distributors & retail
- Food providers/ producers

- Security & safety

---

1 Thematic revenue exposure is 20% at the security level and 50% at the portfolio level.
Corporate culture indicators seek to systematically evaluate a company’s culture

- Women in management (% change y/y growth)
- Management of human capital development
- Employee turnover
- Global leadership
- Workplace equity/inclusive business practices
- Disclosure of leadership and board diversity data

The lowest scoring quintile is excluded from the investment universe

**Impax Global Social Leaders Fund**

A global strategy investing in companies that offer strong corporate cultures and that provide products and services benefiting society in the transition to a more sustainable economy.
### About Impax Asset Management

**Founded in 1998, Impax is a specialist asset manager, investing in the opportunities arising from the transition to a more sustainable global economy.**

Impax believes that capital markets will be profoundly shaped by global sustainability challenges including climate change, pollution and the essential investments required in human capital, infrastructure, and resource efficiency. These trends will drive growth for well-positioned companies and create risks for those unable or unwilling to adapt.

The company seeks to invest in higher quality companies with strong business models that demonstrate sound management of risk. Impax offers a well-rounded suite of investment solutions spanning multiple asset classes seeking superior risk-adjusted returns over the medium to long term.

Impax has approximately 270 employees across its offices in the United Kingdom, the United States, Ireland and Hong Kong, making it one of the investment management sector’s largest investment teams dedicated to sustainable development.

Definitions and disclosures

**MSCI ACWI**: is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets. The MSCI ACWI consists of 50 country indexes comprising 23 developed and 27 emerging market country indexes. The developed market country indexes included are: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, United Kingdom and United States. The emerging market country indexes included are: Argentina, Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Kuwait, Malaysia, Mexico, Pakistan, Peru, Philippines, Poland, Qatar, Russia, Saudi Arabia, South Africa, Taiwan, Thailand, Turkey and United Arab Emirates. Performance for the MSCI ACWI Index is shown “net,” which includes dividend reinvestments after deduction of foreign withholding tax.

**Tracking error**: is the difference in actual performance between a position (usually an entire portfolio) and its corresponding benchmark. The tracking error can be viewed as an indicator of how actively a fund is managed and its corresponding risk level.

**Impax Corporate Culture Indicators**

The Impax Corporate Culture Indicators seek to quantitatively evaluate a company’s corporate culture through six workplace culture factors, management of human capital development, employee turnover, women in management, workplace equity/inclusive business practices, gender leadership data and disclosure of leadership and board diversity data. The investment managers analyze available social behavioral data across multiple sources, including in-house research and third-party providers to evaluate every company in the MSCI ACWI universe utilizing the six culture indicators noted above. Companies are scored from 0-100, with 0 being the lowest score and 100 being the highest score. Data is neutralized for market capitalization where appropriate, adjusted for regional differences and is combined into a single scoring output. The lowest scoring quintile is removed from the investment universe.

**Management of Human Capital Development**: companies are evaluated on their workforce talent requirements and their ability to attract, retain and develop a highly skilled workforce. Leaders are identified as those with top quartile scores. Source: MSCI.

**Employee Turnover**: number of employees that left the company within the past year expressed as a percentage of the average total number of employees. Leaders are identified as the top half of companies with the lowest turnover after adjusting for market cap. Source: Bloomberg.

**Women in Management**: year over year growth in the percentage of women in key management positions divided by total key management positions as defined by Impax Gender Analytics Team. Leaders are identified as those with top quartile scores. Source: Impax Gender Analytics Team.

**Gender Leadership Data**: a blend of gender leadership factors collected by the Impax Gender Analytics Team including female CEO/CFO, top quartile % for women in management, top quartile % women on board and top quartile y/y growth in women on board %. Leaders are identified as having at least 2 out of these 5 indicators. Source: Impax Gender Analytics Team.

**Board and Leadership Disclosure**: identifies characteristics (for the company’s Board of Directors and top executives like CEO, CFO and CLO) through publicly available corporate as well as additional reference. Leaders are identified as those companies who are disclosing this data. Source: DiversIQ.

**Workplace Equity/Inclusive Business Practices**: binary indicators are based on many underlying policies and procedures flagging whether a company is making efforts in multiple areas of workplace equity, including pay equity, talent pipeline, diversity targets and disclosure. Leaders are identified as having successfully implemented 3 out of 4 of these areas. Source: Impax Gender Analytics Team.
Women on Board: year over year growth in the percentage of women in board positions divided by total number of board positions as defined by Impax Gender Analytics Team. For ex-US and ex-Japan companies only. Market cap adjusted. Source: Impax Gender Analytics Team.

RISK: Equity investments are subject to market fluctuations, the fund’s share price can fall because of weakness in the broad market, a particular industry, or specific holdings. The Fund is actively managed. The investment techniques and decisions of the investment adviser and the Fund’s portfolio manager(s), including the investment adviser’s assessment of a company’s ESG profile when selecting investments for the Fund, may not produce the desired results and may adversely impact the Fund’s performance, including relative to other funds that do not consider ESG factors or come to different conclusions regarding such factors. Further, in evaluating a company, the Adviser is often dependent upon information and data obtained from the company itself or from third-party data providers that may be incomplete or inaccurate, which could cause the investment adviser or the Fund’s portfolio manager(s) to incorrectly assess a company’s ESG profile.

The Fund does not have an operating history and may not achieve significant scale.

Non-US securities may have less liquidity and more volatile prices than domestic securities, which can make it difficult for the Fund to sell such securities at desired times or prices. Non-US markets may differ from US markets in material and adverse ways. For example, securities transaction expenses generally are higher, transaction settlement may be slower, recourse in the event of default may be more limited and taxes and currency exchange controls may limit amounts available for distribution to shareholders. Non-US investments are also subject to the effects of local political, social, diplomatic or economic events.

Environmental, social, and governance (ESG) criteria are a set of standards for a company’s operations that socially conscious investors use to screen potential investments. Environmental criteria consider how a company performs as a steward of nature. Social criteria examine how it manages relationships with employees, suppliers, customers, and the communities where it operates. Governance deals with a company’s leadership, executive pay, audits, internal controls, and shareholder rights.
