Important information

The inception date for the Impax International Sustainable Economy Fund Institutional Class is January 27, 2011, and the Investor Class inception date is March 31, 2014. The performance information shown for the Investor Class represents the performance of the Institutional Class shares for the period prior to Investor Class inception. These returns have not been adjusted to reflect the expenses allocable to Investor Class shares.

Effective March 31, 2021 the MSCI EAFE (Net) Index replaced the MSCI EAFE ESG Leaders (Net) Index as the primary benchmark for the Sustainable Economy Fund because the Adviser believes the MSCI EAFE (Net) Index is a more appropriate broad-based securities market index representing the universe of securities in which the Fund may invest.

RISK: Equity investments are subject to market fluctuations, the fund’s share price can fall because of weakness in the broad market, a particular industry, or specific holdings. Emerging markets and International investments involve risk of capital loss from unfavorable fluctuations in currency values; differences in generally accepted accounting principles, economic or political instability in other nations or increased volatility and lower trading volume. The Fund is actively managed. The investment techniques and decisions of the investment adviser and the Fund’s portfolio manager(s), including the investment adviser’s assessment of a company’s ESG profile when selecting investments for the Fund, may not produce the desired results and may adversely impact the Fund’s performance, including relative to other Funds that do not consider ESG factors or come to different conclusions regarding such factors.

Environmental, social, and governance (ESG) criteria are a set of standards for a company’s operations that socially conscious investors use to screen potential investments. Environmental criteria consider how a company's standards for a company's operations that socially conscious investors use to screen potential investments. Environmental criteria consider how a company’s operations impact the environment. Social criteria examine how a company manages relationships with employees, suppliers, customers, and the communities where it operates. Governance deals with a company’s leadership, executive pay, audits, internal controls, and shareholder rights.

The unsubsidized 30 Day SEC Yield is the fund’s net income (excludes expenses) from the prior 30 days, annualized. Figures include reinvested dividends, capital gains distributions, and changes in principal value.

The MSCI EAFE (Europe, Australasia, Far East) Index is a free float-adjusted market capitalization index that is designed to measure the equity market performance of developed markets, excluding the US and Canada. The MSCI EAFE Index consists of the following 21 developed market country indices: Australia, Austria, Belgium, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, and the United Kingdom. Performance for the MSCI EAFE Index is shown “net”, which includes dividend reinvestments after deduction of foreign withholding tax.

One cannot invest directly in an index.

The Morningstar style box is a nine-square grid that classifies securities by size along the vertical axis and by style (Value and Growth Characteristics) along the horizontal axis. Morningstar’s equity style methodology uses a building block, holdings-based approach. Funds are classified as large, mid, or small based on the market capitalization of its portfolio holdings. Style is determined at the stock level and then those attributes are rolled up to determine the overall investment style of a fund.
