Fund specific risks

Market risk: The Fund's investments are subject to market fluctuations, so they can fall as well as rise in value.

Currency risk: Currency Risk: Fluctuation in exchange rates may reduce investment gains or income and increase losses. Additional risk should be considered where the Fund's base currency differs from the currency of your own investments

Emerging market risk: The Fund's investments may be adversely affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions in foreign investment and the movement of money from one country to another, currency fluctuations and other developments in the laws and regulations of countries

in which investments may be made.

Liquidity risk: Substantial selling by shareholders may necessitate the Investment Manager having to sell investments, incurring losses that would otherwise not have arisen.

Investment risk: Governmental liberalisation of basic services and increased environmental legislation may not occur as expected. The costs of technology in environmental markets may not be competitive. The Fund will invest in a number of relatively newly established companies and companies whose future is dependent on widespread adoption of their products and services.

Sustainability risk: Sustainability risks are environmental, social and governance events or conditions whose occurrence could have an actual or potential material negative impact on the value of the Fund and all known types of risk of the Fund.

This factsheet is intended for information purposes only and does not constitute or form part of any offer or invitation to buy to sell shares in the Impax Environmental Markets (Ireland) Fund. Any investment decision should be made only on the basis of the Prospectus, KIID and appropriate professional advice.

Private investors can invest via an advisor. In all instances please consult your stock-broker or independent financial advisor for investment advice.

General risks

- **Market fluctuations:** Potential investors should note that the investments of each Fund are subject to market fluctuations and that there can be no assurance that any appreciation in value will occur. The value of investments and the income from them, and therefore the value of, and income from the Shares, can go down as well as up and an investor may not get back the amount invested.
- **Cross liability between funds:** The Company is established as a segregated portfolio company. As a matter of Irish law, the assets of one Fund will not be available to satisfy the liabilities of another. However, the Company is a single legal entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation. There is no guarantee that the courts of any jurisdiction outside Ireland will respect the limitations on liability associated with segregated portfolio companies nor is there any guarantee that the creditors of one Fund will not seek to enforce such Fund's obligations against another Fund.
- **Expenses charged to capital:** Shareholders should note that all or part of expenses may be charged to the capital of a Fund in order to enhance distribution levels. This will have the effect of lowering the capital value of an investment in a Fund.
- **Substantial repurchases:** Substantial repurchases by Shareholders may necessitate liquidation of investments. It is possible that losses may be incurred due to such liquidations that might otherwise not have arisen.
- **Temporary suspension:** Investors are reminded that in certain circumstances their right to redeem or convert Shares may be temporarily suspended.
- **Dependence on the principals of the Investment Manager:** The principals of the Investment Manager have authority to control the investment management of the Company. If, for any reason, the Investment Manager were to lose the services of these individuals, the Company might be adversely affected.
- **Performance fee:** Any Performance Fee paid to the Investment Manager may create an incentive for the Investment Manager to cause a Fund to make investments that are riskier or more speculative than would be the case if there was no Performance Fee in place.
- **Political or regulatory risks:** The value of a Fund's assets may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions in foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments may be made.
- **Controlling shareholder:** There is no restriction on the percentage of the Company's Shares that may be owned by one person or a number of connected persons. It is possible, therefore, that one person, including a person or entity related to the Manager or the Investment Manager, may obtain control of the Company or of a Fund.

Important information

This is marketing material. Please refer to the Prospectus of the Fund and to the KIID before making any final investment decision.

This document has been issued by Impax Asset Management Ireland Limited which is authorised and regulated by the Central Bank of Ireland and which is the UCITS management company (the "Management Company") of Impax Funds (Ireland) plc (the "Funds"). This document is solely for the use of professionals, defined as Eligible Counterparties or Professional Clients, under Directive 2014/65/EU ("MiFID II"), and in Israel only to Qualified Investors listed in the first supplement of the Israeli Securities Law, 5728-1968 who are also Eligible Clients as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law, 5755-1995, and this document may not be reproduced or used for any other purpose, nor be furnished to any other person.
