How did the Fund perform last year?

The Fund outperformed its benchmark, the ICE BofA Merrill Lynch U.S. High Yield Cash Pay BB-B (Constrained 2%) Index, driven by strong, broad-based security selection and supportive allocation decisions. Overweights in the Media and Telecommunications sectors and an underweight in the Leisure sector contributed, while no Energy sector exposure added a tailwind. Security selection in the Media, Financial Services, and Basic Industry sectors was additive, supported by strong contributions from Azorra Finance and Brookfield Property and by avoiding Labels Buyers. Azorra's fleet growth boosted earnings, and Brookfield's solid asset base and potential policy support helped limit downside risk.

Detractors included overweights in the Technology & Electronics and Banking sectors. The Healthcare sector was the only area of negative selection, driven by Dentsply Sirona as investor concerns over higher R&D spending overshadowed in-line results. Cash holdings also weighed on performance amid a strong high-yield rally.
