

Impax Sustainable Allocation Fund

Annual Shareholder Report
December 31, 2025

Investor Class | PAXWX

Fund Overview

This annual shareholder report contains important information about the Impax Sustainable Allocation Fund (the "Fund") for the period of January 1, 2025 to December 31, 2025. You can find additional information about the Fund at <https://impaxam.com/SA>. You can also request this information by contacting us at (800) 372-7827.

What were the Fund's costs for the year?

(based on a hypothetical \$10,000 investment)

Class Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Investor Class	\$32	0.30%

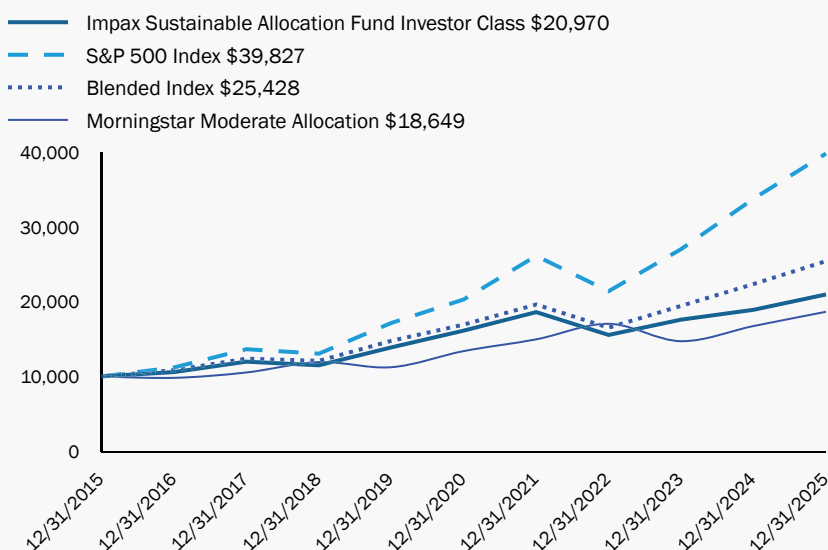

How did the Fund perform last year?

The Fund delivered double-digit returns but underperformed its Blended Index benchmark. Equity results lagged due to weak manager selection in US Large Cap and softness in International and Small Cap allocations. Sector effects were modestly negative, with underweights in the Communication Services sector and an overweight in the Real Estate sector detracting. An overweight in the Health Care sector was positive as companies saw growth.

The bond allocation also underperformed. Broad allocation decisions helped, but security selection detracted. The biggest positive contributor was the underweight in US Treasuries, supported by overweights in securitized products and government-related securities. Corporate selection added value in the Communications and Financial Institutions sectors, aided by avoiding volatile names like Warner Bros. Discovery and Meta. Agency fixed-rate holdings and non-agency CMBS also contributed.

Key detractors were security selection in government-related securities and US Treasury curve positioning.

Total Returns Based on a Hypothetical \$10,000 Investment is displayed
