Impax Asset Management Group plc ("Impax" or the "Company")

Impax delivers out-performance across major strategies for first half year and £100 million of net inflows

London, 16 May 2013 - Impax Asset Management Group plc, ("Impax" or the "Company"), the AIM listed investment manager dedicated to investing in the opportunities created by the scarcity of natural resources and growing demands for cleaner more efficient products and services, announces its final unaudited results for the six months to 31 March 2013.

Highlights

- Assets under management ("AUM") increased 22% to £2.2 billion (31 March 2013) from £1.8 billion (30 September 2012), reflecting net inflows of £100m and rising equity markets
- Revenue in the first half of 2013 was £8.7m (H1, 2012: £9.2m)
- Operating earnings¹ were £1.8m (H1, 2012: £2.2m)
- Unaudited profit before tax was £1.5m (H1, 2012: loss of £2.7m²)
- Diluted earnings per share were 1.38 pence (adjusted³) (H1, 2012: 1.45 pence (adjusted³))
- Shareholders' equity increased to £22.8m (H1, 2012: £22.2m)
- Strong investment performance
- Proposed restructuring of Impax Asian Environmental Markets plc announced

Ian Simm, Chief Executive commented:

"With rising concerns about the pace of climate change, the quality of water and air, the reliability of harvests and the price of materials, investors are increasingly interested in exposure to companies active in resource efficiency and environmental markets. I am therefore pleased that Impax has delivered strong investment performance and secured significant inflows."

¹revenue less operating costs

²profit before tax in the Period was impacted inter alia by £0.36 million of charges (2012: £4.85 million) associated with the Company's share-based incentive schemes

³adjusted to exclude IFRS2 charges for shares schemes intended to be satisfied by primary shares, and include the related tax benefit reported in Other Comprehensive Income and the dilution effect of unvested share awards

Chief Executive's Statement

Impax has delivered strong investment performance across all strategies and it is pleasing to report a significant increase in assets under management.

The first half year for Impax Asset Management Group plc ("Impax" or "the Company"), i.e. the Period from 1 October 2012 to 31 March 2013 saw strong gains for global equity markets, reflecting improved economic data from the US and Asia in particular. The fundamentals for companies active in resource efficiency and environmental markets (Impax's "Target Markets") continued to strengthen, while there was increased interest from institutional investors in the associated opportunities. Against this background, Impax's assets under management and advisory ("AUM") increased by 22 per cent to £2,234 million as strong performance across all the listed equity strategies that we manage augmented the receipt of £100 million of net inflows. On 30 April 2013, AUM were £2,246 million.

Developments in Resource Efficiency and Environmental Markets

During the Period our Target Markets out-performed broader indices. For example, the FTSE Environmental Opportunities All Share Index ("EOAS") returned 23.6 per cent (total return, GBP) while the MSCI World Index was up 17.4 per cent (net return, GBP). This out-performance during the Period reflects a welcome recovery: over three years to 31 March 2013, the EOAS returned 23.2 per cent, trailing the MSCI World which was up 27.5 per cent (net return, GBP).

In the US, the recovery of the construction sector has proved to be a strong growth driver for the energy efficiency and water markets, where long-standing regulations have underpinned investment in cleaner products and services such as insulation material, efficient lighting and water filtration equipment, for which demand had been depressed. Similarly, increased sales of new vehicles, higher rates of disposal for old vehicles and rising demand for metals from China have contributed to an improvement in prospects for metals recyclers.

Although economic activity across Europe remained depressed, the European Commission unveiled the EU's seven year budget to 2020, which included a tripling of expenditure to help improve sustainability across the broader economy, including specific measures for agriculture. It also opened a consultation into extending targets for the reduction of carbon dioxide emissions ("CO₂") and the possible setting of renewable energy targets up to 2030.

In Asia, the smooth leadership transition in China has led to a rapid increase in targeted infrastructure spending, while the severe smog conditions that have blighted many of China's cities this winter also appear to have given the government extra impetus to implement several new policy measures to tackle air pollution. In Japan, the introduction of a major stimulus programme has provided a positive backdrop to stocks in resource efficiency sectors, while further announcements in energy policy have raised investor interest in a range of companies offering products and services that improve energy efficiency.

Progress on climate change policy was mixed. Following his re-election President Obama re-iterated his commitment to limiting greenhouse gases, approving US\$18 billion of green tax provisions and giving the Environmental Protection Agency ("EPA") a clear mandate to control CO₂ emissions. Nevertheless, at the Doha climate talks in December, international efforts to curb climate change progressed slowly, ending with an agreement to extend pollution limits under the Kyoto Protocol only until 2020, while the European Parliament's recent failure to adjust the CO₂ Emissions Trading System has been widely seen as undermining the prospects for cap and trade regulation of greenhouse gases.

Financial results for the Period

Revenue for the six months to 31 March 2013 was £8.7 million (2012: £9.2 million). Operating earnings¹ for the Period were £1.8 million (2012: £2.2 million) and the associated operating margin was 21 per cent (2012: 24 per cent). Compared to the first half of the previous year, these numbers reflect a slightly lower average fee rate on our listed equity funds and the full effect of costs incurred during late 2011 and 2012 as we built out the Company's platform.

The unaudited result for the Period was a profit before tax ("PBT") of £1.5 million (2012: loss of £2.7 million²) and the diluted adjusted³ earnings per share for the Period were 1.38 pence (2012: 1.45 pence).

At the Annual General Meeting on 13 February 2013, Impax shareholders approved payment of a dividend of 0.75 pence per share for the year ended 30 September 2012 (2011: 0.70 pence).

Listed Equities

During the Period, our strategies generally performed well, reflecting the recovery in the prospects for, and investor sentiment towards, our Target Markets. Our Leaders strategy returned 24.4 per cent, a material outperformance against the MSCI World Index, which returned 17.4 per cent (net return, GBP), while our Water strategy, which returned 23.5 per cent, remains one of the best performing funds in its peer group since inception in 2008. The Specialists strategy, which invests in stocks of small and mid cap environmental services and technology companies, returned 21.9 per cent which was in line with its comparator, the FTSE ET50 Index, which returned 21.1 per cent (total return, GBP).

The Food & Agriculture fund, which we launched in December 2012, has had a respectable performance, returning 14.1 per cent from inception to the end of the Period; the fund was ahead of most peers although it lagged the MSCI ACWI Agriculture & Food Chain Index (17.3 per cent net return).

In October 2009 we launched an Asia-Pacific strategy to provide investors with targeted exposure to companies based in the region that are active in our Target Markets; our largest client following this strategy is Impax Asian Environmental Markets plc ("IAEM plc"), an investment trust that had £218 million of net assets on 30 April 2013. During the Period, this strategy performed strongly, returning 27.8 per cent while the MSCI AC Asia Pacific Ex-Japan Index grew by 14.9 per cent; however, between launch and 31 March 2013 the strategy underperformed, rising only 17.7 per cent compared to 43.7 per cent for the regional index. In late March, IAEM plc's two largest shareholders, who together held ca. 44 per cent of the issued ordinary shares, decided to sell their holdings, following which new investors built a sizeable position. In response to pressure

from these investors, the board of directors of IAEM plc has proposed to wind up the company, offering investors the choice of cash or the opportunity to exchange their shares for shares in Impax Asian Environmental Markets (Ireland) Fund, an open-ended company with a similar mandate.

Private Equity

Our private equity business has made further solid progress. The operating assets of our first fund, Impax New Energy Investors, continue to perform well at an operational level, although we booked a write down following confirmation of a tax increase in Spain.

During the Period, we expanded the portfolio for our second fund, Impax New Energy Investors II by adding two wind projects in Poland, and have now invested or committed approximately 50 per cent of this fund's committed capital. In parallel, our team is managing the construction of 117MW of onshore wind farms across France, Germany and Poland.

Fund flows and distribution

The net inflows of £100 million over the Period comprised inflows into our listed equity funds and accounts of £232 million, with the majority of this into the Water and Leaders strategies, and outflows of £132 million. The BNP Paribas Aqua fund, which we have sub-managed since its inception in 2008, expanded its structure to facilitate distribution across Continental Europe, and inflows from France were particularly strong.

In February, we added a senior salesman to our UK distribution team in order to increase coverage of global distributors, family offices and wealth managers, and are encouraged by the early interest shown by investors in these channels with whom we have not to date had relationships.

In the United States, following the recruitment in August 2012 of an experienced Head of Institutional Sales and Client Service, we have significantly expanded our marketing activity, which is supported by a media campaign to raise our corporate profile. During the Period the AUM for US clients in domestic funds increased 58 per cent to £57 million and we are optimistic that we will see continuing commitments from North American investors.

Infrastructure and support

We envisage that our current staffing levels will be sufficient to service significant additional inflows, at least into 2014. At the end of the Period our total headcount was 57.5 full time equivalent staff, an increase of one from the start of the Period. We continue to strive to make operating efficiencies while maintaining a robust, scalable platform.

Remuneration and share management

In line with the Company's remuneration policy, during the Period the Board confirmed the grant of three million Employee Share Option Plan ("ESOP") options to management and staff in respect of their performance for the financial year ended 30 September 2012. The strike price was set at 37.6 pence, and the options will vest on 31 December 2015.

During the Period, the Company's employee benefit trust conducted purchases of the Company's shares, with the aim of reducing the requirement to issue new shares to satisfy the exercise of options awarded under the ESOP; to date, 6.1 million shares have been purchased since the start of the buy-back programme.

Board of Directors

In the light of his significant other commitments, Peter Gibbs has decided to step down from the Board with effect from today. The role of Senior Non-Executive Director has been assumed by Mark White, and Vince O'Brien has become Chairman of the Remuneration Committee. I would like to take this opportunity to thank Peter for his dedication and invaluable insight and advice in helping to develop the Company over the last five years.

Prospects

Following a strong run we are now seeing some higher levels of volatility in global equity markets, while indicators of the state of the economy are mixed. Nevertheless, the outlook for earnings in resource efficiency and environmental markets is generally positive and we continue to identify opportunities to purchase under-valued assets. Meanwhile, investor interest in our proven, disciplined approach to managing investment portfolios is building and the Company is well positioned for further growth.

Impax Asset Management Group plc Notes to the Condensed Consolidated Interim Financial Statements For the Six Months Ended 31 March 2013

1 Reporting entity

Impax Asset Management Group plc is a public limited company that is incorporated and domiciled in the United Kingdom, and is listed on the Alternative Investment Market ("AIM"). The condensed consolidated interim financial statements of the Company for the six months ended 31 March 2013 comprise the Company and its subsidiaries (together referred to as the "Group").

2 Statement of compliance

This interim report is unaudited and does not constitute statutory accounts within the meaning of Section 435 of the Companies Act 2006. These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU and the AIM rules. They do not include all the information required for full annual financial statements, and should be read in conjunction with the consolidated financial statements of the Group for the year ended 30 September 2012.

The comparative figures for the financial year ended 30 September 2012 are not the Company's statutory accounts for that financial year. Those accounts, prepared in accordance with International Financial Reporting Standard ("IFRS") as adopted by the EU, have been reported on by the Company's auditors and delivered to Companies House. The report of the auditors was (i) unqualified, (ii) did not include a reference to matters to which the auditors drew attention by way of emphasis without qualifying their report, and (iii) did not contain a statement under section 498 (2) or (3) of the Companies Act 2006. Copies of these accounts are available upon request from the Company's registered office at Norfolk House, 31 St James's Square, London, SW1Y 4JR or at the Company's website: www.impaxam.com.

These condensed consolidated interim financial statements were approved by the Board of Directors on 15 May 2013.

3 Significant accounting policies

The accounting policies applied by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its consolidated financial statements for the year ended 30 September 2012. The Group has adopted no new accounting standards that have had an impact on the Statement of Comprehensive Income or the Statement of Financial Position. Certain balances for 2012 have been reclassified to conform with the current period classification.

4 Estimates

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were: i) judgements and estimates made in the valuation of unlisted current asset investments (see note 12); ii) determining whether managed funds should be consolidated; iii) determining the size of the charge for share-based payments, iv) determining the size of the charge for National Insurance Contributions payable on long-term incentive schemes and v) determining the value of deferred tax assets.

5 Long-term incentive scheme charges

Share-based payment charges

Under the Group's Employee Incentive Arrangement ("EIA") Extension Scheme, share-based payment awards were granted in April 2011 to employees when the Trustee of the Impax Group Employee Benefit Trust 2005 ("the EBT") agreed to allocate four million Ordinary Shares to a sub-fund of the EBT of which Ian Simm, the Company's Chief Executive, and his family are beneficiaries and when 14.05 million Long Term Incentive Plan ("LTIP") options were awarded to other employees.

The awards allocated to the EBT sub-fund for Ian Simm and his family ceased to be subject to revocation due to Ian Simm's continued employment by the Company on 30 September 2012. LTIP options have a 1p or nil exercise price and vested to individuals who remained employed on 30 September 2012 or in respect of one individual only, 15 January 2013. They are exercisable over a period from 1 October 2012 to 31 December 2020.

The Group accrued for the IFRS 2 Share-Based Payment charge for shares allocated under the EBT and LTIP options from the date of grant, to the date of vesting. This charge is excluded from the Group's definition of adjusted earnings as explained in note 9.

The Group has a further share-based payment scheme called the Employee Share Option Plan under which it has granted a total of 8,030,000 options to date. The Board intends that these awards will be satisfied by share buy-backs. Accordingly the share-based payment charge in respect of these schemes, which is offset by an equal reduction in the total cash bonus pool payable to employees, is included in operating costs and in the Group's definition of adjusted earnings.

Other long-term incentive scheme related charges	Six months ended 31 March 2013	Six months ended 31 March 2012	Year ended 30 September 2012
	£'000	£'000	£'000

EIA Extension NIC charge	40	426	548
EIA Additional payments	6	503	543
Other long-term incentive scheme related charges	83	1,017	979
(NIC = Employer's National Insurance Charge)			

EIA NIC Charge

The Impax Employee Benefit Trust 2005 holds Impax shares and other assets in sub-funds for the benefit of certain of the Group's past and current employees and their families. The Impax shares were awarded under the Group's Employee Incentive Arrangement. The Group is required to pay Employer's National Insurance Charge ("NIC") on the value of any assets that are transferred out of the Trust and has accrued for the estimated amount payable using the relevant share prices at the balance sheet date. The amount payable will fluctuate in line with the Impax share price; such fluctuations are recorded in the current period income statement.

EIA Extension NIC charge

The Group accrues for the Employer's NIC payable in respect of the EIA Extension over the same period as the related share-based payment charge. The amount payable will fluctuate in line with the Impax share price; such fluctuations are recorded in the current period income statement.

EIA Additional payments

Individuals receiving LTIP Options are eligible for a retention payment payable after the end of the financial year in which each employee exercises his or her LTIP Options. The payment will be equal to the corporation tax benefit realised by the Group on the exercise of the LTIP options minus the amount of the Employer's NIC suffered by the Group on the exercise of the LTIP options.

The Group has accrued for these payment over the same period as the related share-based payment charge. The amount payable will fluctuate in line with the Impax share price, such fluctuations are recorded in the current period income statement.

6 Fair value gains

Fair value gains include those arising on revaluation of listed and unlisted investments held by the Group including those held by the Group's consolidated funds (see Note 12) and any gains or losses arising on hedge positions held by the Group and its consolidated funds.

7 Change in third party interest in consolidated funds

This charge removes the fair value gains or losses, other operating costs and investment income recorded in the Group's consolidated funds (see Note 12) which are attributable to third party investors in the funds.

8 Taxation

The tax assessment for the period is lower than the standard rate of corporation tax in the UK for the period (23.5%). The differences are explained below:

			Year ended 30
	Six months ended	Six months ended	September
	31 March 2013	31 March 2012	2012
	£'000	£'000	£'000

9 Earnings and earnings per share

Earnings and Adjusted earnings

In order to better reflect the underlying economic performance of the Group, an adjusted earnings has been calculated. The adjustment i) excludes the IFRS 2 'Share based payment' charge in respect of schemes where shares awarded are expected to be satisfied by the issue of new shares (the EIA Extension), and ii) includes the tax benefit recognised in Other Comprehensive Income in respect of transfers out of the EBT and the exercising of LTIP options.

The Company has 127,749,098 ordinary shares in issue. The Board intends to satisfy current outstanding share awards using shares currently held in the EBT or through further buy-backs and not to issue further shares. Accordingly the number of shares used in the calculation of diluted adjusted earnings per share is equal to the shares in issue.

The weighted average number of ordinary shares used in the calculation of diluted earnings per share reconciles to the weighted average number of ordinary shares used in the calculation of basic earnings per share as follows:

	Six months ended 31 March 2013 '000	Six months ended 31 March 2012 '000	Year ended 30 September 2012 '000
Weighted average number of ordinary shares used in the calculation of basic earnings per share	122,453	108,344	107,609
Additional dilutive shares re EIA Extension, 2011 and 2012 ESOP	-	-	-
Adjustment to reflect future contributions from employees receiving awards	-	-	-
Weighted average number of ordinary shares used in the calculation of diluted earnings per share	122,453	108,344	107,609

The Basic earnings per shares for the six months ended 31 March 2013 includes vested LTIP options on the basis that these have an inconsequential exercise price (1p or 0p). 2011 and 2012 ESOP options are not dilutive based on the relevant strike prices.

10 Dividends

On 13 February 2013, at the Company's Annual General Meeting, payment of a 0.75p per share dividend in respect of the year ended 30 September 2012 (2011: 0.70p per share) was approved. The Trustee of the Impax Employee Benefit Trusts waived the Trusts' rights to part of this dividend, leading to a total dividend payment of £816,000. This was paid on 20 February 2013.

The Directors do not propose an interim dividend for the six months ended 31 March 2013.

11 Goodwill

Cost	£'000
At 31 March 2012, 30 September 2012 and 31	_
March 2013	1,629

Goodwill arose on the acquisition of Impax Capital Limited on 18 June 2001.

The Group tests goodwill for impairment annually or more frequently if there are indications that goodwill may be impaired.

Listed investments

Impax Global Resource Optimization Fund ("IGRO")

In December 2011 the Group launched the Impax Green Markets Fund LP and invested, from its cash reserves, \$5,000,000 into the fund. The Fund's name was subsequently changed to Impax Global Resource Optimization Fund. IGRO invests in listed equities using the Group's Environmental Specialists Strategy. The Group's investment represented more than 50% of IGRO's NAV from the date of launch to 1 December 2012 and accordingly the IGRO has been consolidated until this date with its underlying investments included in listed investments in the table above. Thereafter the Group's investment in the fund is included in Unlisted investments.

Impax Food and Agriculture Fund

On 1 December 2012 the Group launched the Impax Food and Agriculture Fund ("IFAF") and invested, from its own resources £2,000,000 into the fund. The IFAF invests in listed equities using the Group's Food and Agriculture Strategy. The Group's investment represented more than 50% of the IFAF's NAV from the date of launch to 31 March 2013 and accordingly has been consolidated throughout this period with its underlying investments included in listed investments in the table above.

The investments held by the IFAF are revalued to market value using quoted market prices that are available at the date of these financial statements. The quoted market price is the current bid price.

Unlisted investments

The Group has a €3.76m commitment to Impax New Energy Investors LP, a partnership based in England and Wales. At the period end the Group had invested a total of €2.74m (73% of the Group commitment). The Group commitment of €3.76m represents 3.76% of the total commitment of all the partners in Impax New Energy Investors LP. The investment is included at the Board's assessment of its fair value which is determined using a discounted cash flow approach. A 1% increase in the discount rate used would decrease the value of the investment and profit for the period by £180,000.

The Group has a further commitment of €3.3m to Impax New Energy Investors II LP, a partnership based in England and Wales which was established on 22 March 2010. At the period end the Group had invested a total of €733,000. The Group's commitment of €3.3m is equal to 1% of the total commitments made to the fund. The investment is included at the Board's assessment of its fair value.

13 Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents includes the following:

			30 September
	31 March 2013	31 March 2012	2012
	£'000	£'000	£'000
Cash at bank			
Held by operating entities of the Group	3,377	3,962	5,240
Held by the consolidated funds	-	260	337
	3,377	4,222	5,577

In order to mitigate bank default risk and to access favourable interest rates the Group invests part of its surplus cash in money market funds and long-term deposit accounts. Amounts held in money market funds and long-term deposit accounts are as shown below. The Group considers the total of its cash and cash equivalents held by operating entities of the Group and cash invested in money market funds and in long-term deposit accounts to be its cash reserves.

			30 September
	31 March 2013	31 March 2012	2012
	£'000	£'000	£'000
Cash and cash equivalents	3,377	3,962	5,240
Cash held in money market funds and long-term	11,867	12,070	14,094
deposit accounts			
Total cash reserves	15,244	16,032	19,334

14 Group risks

The Group's principal risks remain as detailed within the Directors' report of the Group's 2012 Annual Report and Financial Statements and are categorised as financial, investment, and operational.

15 Share capital

During the period the Company issued 12,166,667 shares to the Impax Asset Management Group plc Employee Benefit Trust 2012 ("EBT 2012") at a price of 34p. At the same time the EBT 2012 acquired 4,974,000 from Treasury at a price of 34p. The Board intends that shares held within the EBT 2012 will be used to satisfy the exercise of share options.

16 Related party transactions

Impax New Energy Investors LP, Impax New Energy Investors II LP, Impax New Energy Investors II-B LP, Impax New Energy Investors SCA, Impax Global Resource Optimization Fund LP, Impax Carried Interest Partners LP and Impax Carried Interest Partners II LP and entities controlled by them are related parties of the Group by virtue of subsidiaries being the General Partners to these funds. BNP Paribas Investment Partners is a related party of the Group by virtue of owning a 25.2% equity holding. Other funds managed by subsidiaries of the Company are also related parties by virtue of their management contracts.

The aggregate related party transactions during the period, and holdings or balances as at the period end, are as shown below. All balances were unsecured. Unless stated otherwise balances outstanding were £nil.
