### About Impax

Founded in 1998, Impax is a specialist asset manager, with approximately GBP£14.5 billion /US\$18.4 billion<sup>1</sup> in both listed and real asset strategies, investing in the opportunities arising from the transition to a more sustainable global economy.

We believe that capital markets will be shaped profoundly by global sustainability challenges, including climate change, pollution and essential investments in human capital, infrastructure and resource efficiency. These trends will drive growth for well- positioned companies and create risks for those unable or unwilling to adapt.

We seek to invest in higher quality companies with strong business models that demonstrate sound management of risk.

Impax offers a well-rounded suite of investment solutions spanning multiple asset classes seeking superior risk-adjusted returns over the medium to long term.
