

Proxy Voting Policy

Date: April 2022

This Proxy Voting Policy (the “Policy”) is applicable to all regulated entities of the Impax Group, namely:

- Impax Asset Management Limited (“Ltd”)
- Impax Asset Management (AIFM) Ltd (“AIFM”)
- Impax Asset Management Ireland Ltd
- Impax Asset Management LLC
- Pax World Funds Series Trust I and
- Pax World Funds Series Trust III (the “Pax World Funds”); all collectively defined as “Impax” or the “Firm”

1. Principles

Proxy voting is the exercise of voting rights obtained by the firm in the course of its day-to-day investment activities in listed equities, deemed to meet Impax’s investment criteria. It is a key component in the ongoing dialogue with the companies in which the Firm invests. As such, proxy voting forms an important aspect of Impax’s overall investment process.

The Firm is committed to ensuring the consistent exercise of voting rights associated with shares held in investment mandates, where proxy voting has been delegated to Impax. Through the implementation of this Policy, Impax aims to enhance the long-term value of its shareholdings, foster clear corporate governance best practices and promote greater accountability and transparency in the companies Impax has invested in. The Firm also aims to exercise voting rights on all shares held by Impax, where it is in the best interest of its clients and where excessive costs or administrative burdens are not present. It is the Firm’s policy to vote in all shareholder meetings and on behalf of all investors who have granted the Firm voting rights.

Impax invests in companies in a variety of countries and markets around the globe each year. Each market has unique rules, reporting requirements, and ESG practices and standards. The Firm aims to stay abreast of new and emerging issues in these markets, and how they relate to global best practices for ESG issues.

The Firm supports the UK Stewardship Code and complies with its guidelines regarding proxy voting. The Pax World Funds comply with the U.S. Securities and Exchange Commission’s proxy voting disclosure requirements for mutual funds. In addition, as part of Impax’s on-going proprietary company and issuer-level ESG analysis, the Firm identifies company-specific matters and risks. As part of monitoring and managing risks, Impax exercises active ownership and actively votes on and engages with companies and issuers regarding these matters.

Main Corporate Governance Principles That We Expect from Our Investee Companies

- Creating sustainable, long-term value for stakeholders
- Protecting shareholder rights
- Maintaining high integrity in corporate behaviour at all times
- Ensuring an independent and efficient board structure
- Aligning corporate incentive structures and remuneration with long-term interests of shareholders
- Disclosing accurate, timely and transparent financial and corporate governance information
- Ensuring strong environmental and social performance and disclosures.

2. Environmental, Social and Governance Considerations

Impax believes that well-governed companies are attentive to the environmental, social and governance (ESG) concerns that affect shareholders and stakeholders. These companies actively engage with their stakeholders and consider the long-term implications of their actions with a focus on creating durable, sustainable value.

Our ESG criteria helps us identify well-managed companies; while stewardship helps us improve the environmental, social and corporate governance performance of the companies we invest in. Proxy voting is one of the ways of engagement with investee companies. Impax seeks to vote proxies consistently with our ESG criteria, which we apply to all companies.

3. Processes

Impax's proxy voting is predominantly related to governance issues such as the election of directors, board structures and management remuneration. The Firm also maintains dialogue with investee companies throughout the year and frequently engages on proposed governance structures ahead of voting at an AGM or soon after.

- Impax uses a third-party voting platform to facilitate the Firm's vote execution, reporting and record keeping. Impax also use third-party service providers, including proxy advisor service providers, to help inform its analysis of relevant proxy issues and proxy votes.
- Impax's proxy voting principles and guidelines are informed by individual country governance codes and best practices, and by advisory governance and internal research.
- The Firm applies its voting principles and guidelines with full consideration to a company's circumstances, following internal analysis.
- Votes are cast on shares, where there are no legal, financial or technical constraints.
- Where Impax's proxy voting principles and guidelines or general corporate governance best practice principles are not met, the Firm votes against a resolution and, when practical, attempt to engage with the investee firm before or after the meeting.
- Impax carefully assesses shareholder resolutions and tend to vote for resolutions that are reasonable and would strengthen governance structures, shareholder rights or sustainability processes and disclosures.

4. Proxy Voting Conflicts of Interest

The Firm reviews each proxy vote to assess the extent, if any, to which there may be a material conflict between the interests of our clients and the Firm's own interests (including those of our affiliates, managers, officers, employees and other connected persons) (referred to hereafter as a "Potential Proxy Conflict of Interest"). Impax performs this assessment on a resolution basis.

The Firm conducts proxy voting in accordance with its own Proxy Voting Guidelines. If it is determined that a Potential Proxy Conflict of Interest exists, the potential conflict will be promptly reported to the Firm's Chief Compliance Officer (the "CCO"). The CCO will then determine whether a Potential Proxy Conflict of Interest exists and is authorized to resolve any such conflict in a manner that is in the collective best interests of all affected clients. The CCO may decide to resolve a Potential Proxy Conflict of Interest in any of the following manners:

- Impax may disclose any potential conflict to affected clients and obtain the consent of the majority of those clients, before voting in the manner approved by the majority of those clients;

- Impax may elect to engage an independent third-party to help determine how the proxy should be voted on; or
- Impax may elect to establish an internal information barrier between the relevant person(s) that are involved in the potential conflict and the person(s) involved in making the proxy voting decision, in order to insulate the potential conflict from the proxy vote decision maker.

5. Disclosures

- Proxy voting records:
 - On a quarterly basis Impax publicly discloses on its website a summary of the company’s proxy voting activity.
 - On an annual basis Impax publicly discloses on its website all “significant votes”¹ cast.
 - Voting decisions for both past and upcoming meetings for each of the Pax World Funds are disclosed on the Pax World Funds’ website.
 - Pax World Funds files a Form N-PX (annual report of proxy voting record) with the U.S. Securities and Exchange Commission annually.
- Impax Proxy Voting Guidelines; periodically updated.
- ESG policy: Impax’s ESG policy is publicly disclosed on the Impax website.
- UK Stewardship Code Statement: This statement can be found on the Impax website.
- Client Communications: The Firm regularly discusses and reports its stewardship policies and/or activities with its clients. The Manager Reports published include a reference to where further information on the Firm’s stewardship policies and activities can be found.
